

Project Title: Magnets

Student/Team Leader Name Mason Cooper

School, City, State Epiphany Catholic School, Lake City, Florida

I researched my project topic. I planted 18 seeds in six pots at 3 per pot 5.8cm down in 22.5 cm of dirt after proving the seeds were viable, then poured 650ml of water in each pot. I added one magnet 2.54cm down in one pot. I left another as a control that I never added the magnet. Three days later I put another magnet down 2.5cm in the dirt.

I repeated the process every three days recording the length of the seeds day by day. Three days ago I ended the experiment, and recorded my results.

1. As a part of this research project, the student directly handled, manipulated, or interacted with (check ALL that apply):

- human subjects
- potentially hazardous biological agents
- vertebrate animals
- microorganisms
- rDNA
- tissue

2. This abstract describes only procedures performed by me/us, reflects my/our own independent research, and one year's work only.

- Yes
- No

3. I/we worked or used equipment in a regulated research institution or industrial setting. Yes No **Form 1C required**

4. This project is a continuation of previous research. Yes No

5. The display board includes non-published photographs/visual depictions of humans (other than myself): Yes No

6. All photos on display were taken by: (check ALL that apply) **Citation required on display**

- Researcher(s)
- Research Teacher(s)
- Parent(s)
- Other

7. All charts/graphs/illustrations were produced by the researcher(s). **Citation required on display**

- YES
- NO

I/We hereby certify that the above statements are correct and the information provided in the Abstract is the result of one year's research. I/We also attest that the above properly reflects my/our own work.
